

GUILHERME TAVARES

QA Engineer | AI Quality & Software Testing

São Paulo, Brazil | +55 (11) 95282-5374 | guids.tavares@gmail.com
linkedin.com/in/guilherme-tavares-398563240/ | github.com/guilhermeTavo

PROFESSIONAL SUMMARY

QA Engineer with professional experience across **software testing, AI model evaluation, technical support, and web development**. Identified, reproduced, and documented **200+ high-priority software defects** while performing functional, exploratory, regression, UI/UX, mobile, and cross-browser testing. Previously evaluated **Google Gemini** responses for accuracy, reasoning, instruction following, relevance, and behavioral quality. Strong analytical background turning unclear problems into reproducible evidence, actionable bug reports, and clear technical communication.

PROFESSIONAL EXPERIENCE

SIDE INC. — QA Tester

September 2025 – Present

- Identified, reproduced, and documented **200+ high-priority software defects** with clear reproduction steps, evidence, and technical context in Jira.
- Performed functional, exploratory, regression, UI/UX, mobile, and cross-browser testing across software releases.
- Designed test scenarios for new features, critical user flows, edge cases, and resolved defects; validated fixes through retesting.
- Investigated unexpected behavior using browser DevTools, screenshots, logs, and structured reproduction procedures; collaborated directly with developers.

TURING — AI Quality & Model Evaluation Analyst

April 2026 – August 2026

- Evaluated Google Gemini responses across complex prompts and real-world scenarios for accuracy, relevance, reasoning, instruction following, context handling, and overall quality.
- Identified factual errors, behavioral inconsistencies, edge cases, and recurring failure patterns using structured QA principles.
- Created and refined prompts to test model behavior under different contexts and constraints; documented results against defined quality criteria.

AGÊNCIA CLASS — Web Developer / Technical Support

November 2022 – August 2025

- Developed and maintained web applications using PHP, JavaScript, HTML, and CSS, with focus on responsive interfaces and cross-browser compatibility.
- Investigated customer-reported issues, reproduced production problems with browser developer tools, and translated reports into actionable technical information.
- Collaborated with development and support teams to diagnose defects and implement solutions.

SELECTED QA & AI QUALITY PROJECTS

LLM Quality & Red Teaming Lab

Structured LLM evaluation and red-teaming project covering **30 test cases**, quality assessment, safety evaluation, defect severity, and release-readiness analysis. Tested instruction following, factual reliability, context handling, privacy, safety, and adversarial behavior. **Live:** guilhermetavo.github.io/llm-quality-red-teaming-lab/ | GitHub: github.com/guilhermeTavo/llm-quality-red-teaming-lab

LLM Localization QA Lab

PT-BR localization QA project with **20 structured test cases**. Tested meaning preservation, Brazilian Portuguese naturalness, terminology, tone, regional language differences, and locale formatting; identified high-severity localization defects. **Live:** guilhermetavo.github.io/llm-localization-qa-lab/ | GitHub: github.com/guilhermeTavo/llm-localization-qa-lab

Customer Support QA & Bug Triage Lab

SaaS support and QA simulation covering **20 customer scenarios** and **9 simulated product defects**. Practiced reproduction, classification, severity/priority assessment, engineering escalation, and retest criteria. **Live:** guilhermetavo.github.io/customer-support-qa-lab/ | GitHub: github.com/guilhermeTavo/customer-support-qa-lab

CORE SKILLS

Software QA: Manual Testing · Functional Testing · Exploratory Testing · Regression Testing · Test Case Design · Bug Reporting · UI/UX Testing · Mobile Testing · Cross-Browser Testing · Defect Retesting

AI Quality: LLM Evaluation · Prompt Evaluation · Model Behavior Analysis · Instruction Following · Factual Accuracy · Edge-Case Testing · Red Teaming · Localization QA

Tools & Technical: Jira · TestRail · Browser DevTools · Postman · REST APIs · JSON · SQL · Git · GitHub · VS Code · Playwright · Cypress · Selenium (foundational)

Development & Support: PHP · JavaScript · HTML · CSS · Technical Troubleshooting · Bug Triage · Engineering Escalation · Root-Cause Investigation · Agile · Scrum

EDUCATION & CERTIFICATIONS

B.S. in Information Technology Management — Cruzeiro do Sul Virtual, expected December 2027

Certifications: Jira Software for Agile Teams (Coursera) · UI/UX & Usability Testing Essentials (Alura) · Microsoft Cloud Support Associate (Coursera)

Languages: Portuguese — Native · English — Full Professional Proficiency
